Gas Safe registered heating engineer with NVQ Level 3 in Plumbing and Heating and BPEC-accredited qualifications in Low Temperature System Design, Water Regulations, Air Source Heat Pumps and Vented/Unvented Cylinders. Full Class 2 Driver with 3 and a half years of experience Drivin scaffolding lorry (flat bed) 26 ton, to multiple work side location. Part 2 Scaffolder.

Personal Details

Driver's License: C

Eligible to work in the UK: Yes

Highest Level of Education: Diploma of Higher Education

Industry: Installation & Maintenance

Work Experience

Plumber and Gas Engineer

Digital Investment Solutions Ltd.-UK

July 2024 to Present

Air Source Heat Pump Installation and Commissioning

- Installed domestic ASHP units, including mounting, refrigerant pipework and electrics.
- Conducted system sizing and load assessments to select correct unit and buffer requirements.
- Commissioned systems, and verified COP and flow/return temps.
- Integrated ASHPs with existing distribution and controls, optimising flow/return performance.
- Decommissioning and adapting existing heating systems to meet the new requirements.

HGV Class 2 Driver

DI Solutions Ltd-UK

January 2023 to Present

Part 2 trained scaffolder with 3 years' site experience, skilled in tube & fitting and system scaffold assembly, daily inspections and coordinating safe access for multi-trade projects.

Plumber

Digital Investment Solutions Ltd.-UK

January 2020 to Present

Vented and Unvented Cylinders

- Installed and commissioned vented and unvented hot water cylinders with correct safety devices.
- Selected cylinder capacity and type based on demand and property constraints.
- Ensured PRVs, expansion vessels and tempering valves were fitted and routed correctly.
- Carried out pressure testing, commissioning checks and compliance verification.
- Delivered maintenance, fault diagnosis and cylinder replacements with minimal disruption.

- Decommissioning outdated vented system and performing transitioning to Combi or Unvented heating setups.

Plumber

Digital Investment Solutions Ltd.-UK

January 2020 to Present

Low Temperature Heating System Design

- Designed and specified low-temperature heating systems using heat-loss calculations and emitter schedules.
- Produced radiator and underfloor heating layouts to achieve required flow temperatures.
- Selected boilers, and controls to meet performance and budget targets.
- Commissioned and balanced systems, verifying delta-T and overall performance.

Plumber

Digital Investment Solutions Ltd.-UK

January 2020 to Present

Water Regulations and Byelaws

- Installed and tested hot and cold water systems in line with UK Water Regulations and Byelaws.
- Fitted and specified backflow prevention, check valves and compliant materials.
- Performed post-installation flushing, chlorination and water quality checks.
- Completed statutory paperwork and compliance certification for handover.
- Diagnosed and resolved water pressure and contamination issues.

Domestic Gas Engineer Class 2 Driver

DI Solutions Ltd-Aylesbury

July 2019 to Present

This is my Own Company - currently working as a Domestic Gas Engineer, providing the full range of Domestic services, including Gas Central Heating systems. As an addition, I have good experience driving HGV (no articulated trailers yet).

Gas Engineer

Currys Team Know How-Aylesbury

October 2015 to July 2021

During the most of that time (about 7 years) I have been involved in delivering and installing the full range of domestic gas appliances, white goods and some furniture. I have deep understanding of the sector needs and requirements. I am passionate in providing high level of customer service and high standard of workmanship.

Education

Plumbing (NVQ Level 3 Water Regulations, Air Source Heat Pump, Low Temperature Design, Vented/Unvented Cylinders)

Logic 4 Training-Luton, Bedfordshire

2020 to July 2025

Domestic Gas Installations (Diploma of Higher Education)

Logic 4 Training-Luton, Bedfordshire

March 2016 to September 2016

Military Service

Branch: Second Infantry Corp - Pleven division

Service Country: Bulgaria

Rank: Leftenant

January 1998 to August 2006

Certifications and Licenses

CPC Card

digital tachograph card

Category C Licence

BPEC Air Source Heat Pump Installation and Commissioning

June 2025 to June 2030

BPEC Accredited; installation, commissioning and handover for domestic ASHP systems, system optimisation for efficiency, and basic fault diagnosis.

Certificate Number: 154757 / 162001 / 169339

BPEC Water Regulations and Byelaws renewed

April 2025 to April 2030

BPEC Accredited; knowledge of water supply regulations, safe materials and fittings, backflow prevention and compliance with current UK Water Regulations.

Certificate Number: 25/378002

BPEC Low Temperature Heating System Design renewed

May 2025 to 2030

BPEC Accredited; competent in system sizing, heat loss calculations, radiators and underfloor heating design, and specification of low-temperature plant and emitters.

Certificate Number: 154757 / 162003 / 170193

CPC

January 2023 to December 2028

Driver Qualification Card

BPEC Vented and Unvented Domestic Hot Water Cylinders renewed

September 2023 to September 2028

BPEC Accredited; installation, commissioning and maintenance for vented and unvented cylinder systems including expansion controls, pressure relief and discharge arrangements.

Certificate Number: 23/266368

Driving Licence

March 2023 to March 2028

full Class 2 UK Driving licence

JIB Gas operative card (CSCS)

December 2022 to December 2027

JIB (Join Industry Board) green specialist CSCS card allowing me access to controlled building sites.

BS EN17024 ACS Domestic Gas qualification renewed

September 2022 to September 2027

Gas qualification renewed for a following 5 year period

BS EN17024 ACS Domestic Gas qualification

June 2022 to June 2027

My initial Gas qualification

Additional Information

CISRS Part 2 Scaffolder — Part 2 trained scaffolder with 3 years hands-on experience erecting, altering and dismantling tube and fitting and system scaffolds.

- Installed and inspected temporary access and edge-protection systems to meet site method statements and CDM requirements.
- Interpreted scaffold drawings and load plans, set out working platforms and tied scaffold structures to fabric safely.
- Assembled tube & fitting and system scaffolds, installed working/guard rails, toe boards and safe access (ladders, stair towers).
- Carried out daily scaffold inspections, recorded defects and completed remedial works to maintain compliance.
- Worked closely with site managers and trades to sequence scaffold works and minimise programme delays.
- Maintained tools, equipment and PPE; ensured correct use of lifting equipment and tag-out procedures.
